KEEP GUESTS  
COMING BACK!**

Whether your guests are traveling on business or for pleasure, Broadband Hospitality keeps them connected by continually monitoring each hotel's circuit 24 hours a day, seven days a week.

## Rachel

As an executive with a computer company, Rachel spends a lot of time traveling. While on the road, she always looks for hotels that offer high-speed Internet connections to ensure speedy access to her company's Virtual Private Network.

**Broadband Hospitality provides hotels with a simple, flexible, cost-effective means for providing free or pay-for-use Internet access in every guestroom, conference room and meeting room.**

As a sales representative for a leading cellular phone manufacturer, Scott needs a fast, secure connection to upload orders and review customer e-mails. Broadband Hospitality's easy-to-use connection system enables Scott to check on his accounts in a matter of seconds.

## Scott

**Broadband Hospitality offers technical support to customers and hotel guests 365 days a year. Broadband provides each hotel with an information stand for each guestroom or meeting room. The stand includes connection instructions and a toll-free support number.**

As a retired history teacher, Karen takes at least six trips a year to historic sites. When planning her trips, she looks for hotels that offer High-Speed Internet Access because she likes to research, check the news and communicate with her family without delays.
